

# New evonDEX Tutorial

## *Connect via SafePal Wallet*

Looking to access evonDEX directly through your SafePal Wallet? We've got you covered.

We just released a step-by-step video tutorial that walks you through the entire connection process—quick, clear, and built for both new and experienced users.

<https://x.com/evondexofficial>

### Why SafePal?

As a non-custodial wallet, SafePal gives you full control over your private keys while enabling seamless access to Web3 applications—including evonDEX. It's the perfect gateway for secure, self-custodial trading.

 Watch the tutorial now and start trading with total confidence.

- 
- **Your wallet. Your assets. Your control.**
  - **That's the evonDEX promise.**
- 

 Watch the tutorial

 Download SafePal:

<https://play.google.com/store/apps/details?id=io.safepal.wallet&hl=en>

<https://apps.apple.com/us/app/safepal-crypto-wallet-btc-nft/id1548297139>

SafePal describes its wallet as non-custodial and supports access to Web3 applications, which fits the message around wallet-controlled access.
