

evonDex Announces Token Migration

EVDEX → EVXC

Strengthening Security and Infrastructure

September 2026 – evonDex, a decentralized trading platform, today announced a critical migration of its native token from EVDEX to a new token contract, EVXC. This upgrade is a proactive measure to address evolving security requirements and enhance the platform's long-term infrastructure.

The migration process will officially begin on **Monday, September 9, 2026, at 5:00 AM UTC**. This change will ensure that the evonDex ecosystem remains aligned with the latest industry standards for security and operational robustness. Malaysia Time (MYT) is 8 hours ahead of Coordinated Universal Time (UTC).

Key Details of the Token Migration

- New Token Symbol: **EVXC**
- Token Name: evonDex
- Network: BNB Smart Chain
- **New Contract Address: 0x9d0C9c557594898Ca53072589EB6a3c7efBFF06a**
- Previous Contract (now deprecated): 0x3b8816b51D2b71840129C0A5c21dAaf899085CF8
- Decimals: 18
- Conversion Rate: 1 EVDEX : 1 EVXC (Airdrop)

Migration Process for Holders

To ensure a seamless transition, the process has been designed to be straightforward and secure. Users are required to follow the steps below:

1. Trading Pause: Trading for EVDEX will be temporarily paused on PancakeSwap and the evonDex exchange effective immediately to facilitate the migration.
2. Snapshot & Airdrop: A 1:1 airdrop of EVXC tokens will be distributed to all EVDEX holders. A snapshot of all wallet balances will be taken at the migration start time (5:00 AM UTC).
3. Finalizing the Migration: Users must connect their wallets to the official evonDex portal at <https://evondex.net/>. Upon connection, a pop-up notification will guide users to:

- Add the new EVXC token contract to their wallet (and hide the old EVDEX token for clarity).
- Click the "Burn EVDEX" button to officially finalize the migration of their holdings.

Important Security Notices

Official Communication: The evonDex team emphasizes that users must only follow instructions provided through the official evonDex website and verified social media channels.

Verify Contract Address: All users are strongly advised to verify the new contract address (0x9d0C9c557594898Ca53072589EB6a3c7efBFF06a) against official evonDex communications before approving any transactions or transferring tokens.

Deprecated Contract: The previous contract (0x3b8816b51D2b71840129C0A5c21dAaf899085CF8) is no longer the official evonDex token deployment and should not be used for trading or transfers.

Looking Ahead

This upgrade is part of evonDex's commitment to building a secure, resilient, and future-proof decentralized finance ecosystem. The migration allows the platform to integrate enhanced security features and maintain compatibility with the latest technological advancements in the BNB Smart Chain network.

The evonDex team is also working to update token metadata across all supported wallets and data aggregators. Users will see the updated token name, symbol, and contract details reflected in their interfaces shortly after the migration is complete.

For the latest updates and support, please visit the official evonDex website or community channels.

About evonDex: evonDex is a decentralized exchange and ecosystem on the BNB Smart Chain, dedicated to providing users with a secure and efficient platform for cryptocurrency trading.
